4105.59-H

March 12, 1984

FOREWORD

This handbook is issued under the authority of DoD Instruction 4105.59, "DoD Plant Cognizance Program," October 24, 1983. Its purpose is to list the components assigned to provide contract administration services (CAS) within designated geographic areas and at specified contractor plants.

DoD 4105.59-H, DoD Directory of Contract Administration Services Components, dated July 1983 is hereby canceled.

This handbook applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Organization of the Joint Chiefs of Staff (OJCS), the Unified and Specified Commands, the Defense Agencies, and activities administratively supported by OSD (hereafter called "DoD Components").

This handbook is effective immediately and is mandatory for use by all DoD Components. Heads of DoD Components may issue supplementary instructions only when necessary to provide for unique requirements within their respective Components.

Requests for adjustments to plant cognizance assignments shall be referred through DoD Component channels to the Deputy Under Secretary of Defense (Acquisition Management), Office of the Under Secretary of Defense for Research and Engineering, the Pentagon, Washington, D. C. 20301. Administrative changes such as new addresses or telephone numbers, may be sent directly to the DLA, DLA-AO, Cameron Station, Alexandria, Virginia 22314.

This handbook is distributed to DoD Components requiring the performance of (CAS). It is also available to non-DoD organizations upon request. Instructions for submitting requests for changes in initial distribution and for additional copies are contained on the inside of the front cover.

ROBERT E. BARNES
Deputy Director
Contract Administration

SUMMARY OF CHANGES

This issue includes several minor cognizance changes involving Defense Contract Administration Services Management Area (DCASMA) assignments and numerous administrative changes. Contracts to be assigned to F-16 CASEUR CAS Code 496 shall be for F-16 co-production and follow-on spares only. F-16 aircraft and component overhaul and repair contracts shall be assigned to Detachment 16 AFCMD (AFLC) CAS Code 489. This reflects an agreement between the two Detachments on F-16 CAS responsibilities.

INTRODUCTION

A. As described by DoD Instruction 4105.59, Department of Defense Plant Cognizance Program, and Defense Acquisition Regulation, section XX, part 7, the listed organizations are the DoD offices authorized to provide CAS at their assigned contractor locations when field services are needed. CAS functions include: quality assurance (inspection, acceptance); engineering support; production management (progress monitoring, capability assessments); contract administration (overhead negotiations, pricing); property administration and plant clearance; safety and flight operations; transportation management; and contractor payment.

B. The services of DoD CAS components may be utilized by other U.S. Government Departments, Agencies and Corporations by direct request to the cognizant DoD CAS components indicated herein. These services may also be utilized by foreign governments and international organizations by submitting requests to the Defense Contract Administration Services Region, New York, 201 Varick St., New York, New York 10014 (Attention: Central Control Point). Reimbursement is normally required for CAS rendered to non-DoD organizations.

C. This handbook lists the components engaged in the performance of CAS.

1. Section I of the handbook is a list of DoD CAS components with their CAS code numbers, mailing addresses, telephone numbers, and DODAAD codes. The DoD CAS components are assigned CAS codes in numerical sequence within the following blocks of numbers: DCAS—1 through 199, Army—200 through 299, Navy—300 through 399, Air Force—400 through 499, and Defense Fuel Suply Center-DLA—500 through 510. CAS codes assigned to the CAS components listed in section I are used in section II to designate the component cognizant of each geographic area, city, or plant/facility listed herein. This enables the user of the directory to refer directly to section I for all available information concerning the CAS components identified by CAS codes in section II. DODAAD codes are provided to facilitate the interchange of information required by DoD 4105.63M, Military Standard Contract Administration Procedures.

2. Section II, part 1 of the handbook is a listing which identifies, by state, the CAS code of the CAS component cognizant of a geographical area or location or of a specific contractor's facility for referral to section I. In each state where geographical cognizance is apportioned among two or more DCAS components, the principal cities are listed and ZIP code assignments by DCAS component are included. When the contractor's ZIP code is known, the ZIP code listings will provide an accurate determination of the cognizant DCAS component, particularly for localities not listed in the handbook and for large metropolitan areas for which geographical delineation is difficult.

3. Section II, parts 2 and 3, of the handbook, are listings by country, to identify the CAS code of the CAS component cognizant of a geographical area or a specific contractor's location for referral to section I.

4. Section III is a listing of the Corporate Administrative Contracting Officers within the DoD as required by DAR 20, part 9. These designated personnel are listed in alphabetical order by corporation name.

5. Section IV is a listing of Contract Audit Coordinators and Contact Points within the DCAA. These designated personnel are listed in alphabetical order by corporation name.

6. Section V is a listing of civilian agencies which provide specialized field support services to contacting activities through cross-servicing arrangements.

DETERMINATION OF COGNIZANT CAS COMPONENT

A. *Contractors located in the United States.*

1. In section II, part 1, refer to the state in which the contractor is located. Note that for certain states listings of cities in alphabetical order are included but for most states these listings are not required.

a. If the contractor is specifically listed, by name and location, use the CAS code indicated.

b. If the contractor is included in the general category of "Educational Institutions", use the CAS code indicated.

c. If the contractor is not listed, use the CAS code indicated for the state or city in which the contractor is located, or if the contractor's ZIP code is known, refer to the ZIP code listing which follows the city listing in selected states and use the CAS code indicated.

2. With the CAS code identified, refer to the corresponding code in section I for the name, address, and telephone number of the cognizant CAS component.

B. *Contractors located Overseas (except Petroleum Products).*

1. In section II, part 2, refer to the country in which the contractor is located.

a. If the contractor is specifically listed, or is included in the general category of "Educational Institutions", use the CAS code indicated.

b. If the contractor is not specifically listed, but is located in Ascension Islands, Bahama Islands, Bermuda, Caribbean, Central America, Greenland, Iceland, Marianna and Marshall Islands, Mexico, Puerto Rico, South America or Virgin Islands, use the CAS code indicated.

c. If the contractor is not specifically listed but is located in countries other than those listed above, the following applies:

(1) For contracts of the Military Services, users of the handbook will select the CAS code of the component of the respective Military Service.

(2) For contracts of DLA, other Defense Agencies and non-DoD organizations, users of the handbook will:

(a) If the contractor is located in Europe, Near East or North Africa, submit the request for CAS to any of the military service CAS components indicated by the CAS codes in section II, part 2.

(b) If the contractor is located in Australia, Hong Kong, Japan, Okinawa, Philippine Islands, Singapore, Taiwan, Thailand, or Viet Nam, submit request for CAS to any of the service components indicated by the CAS codes in section II, part 2.

(c) If the contractor is located in a country not listed, submit the request for CAS to the military service CAS component located nearest to the contractor's location.

2. With the CAS code identified, refer to the corresponding code in section I for the name, address and telephone number of the cognizant CAS component.

C. *Contractors located Overseas (Petroleum Products Only).*

1. In section II, part 3, refer to the country in which the contractor is located and use the CAS code indicated.

2. With the CAS code identified, refer to the corresponding code in section I for the name, address and telephone number for the cognizant CAS component.

DISTRIBUTION OF PROCUREMENT DOCUMENTS

Activities requiring the performance of contract administration services shall distribute procurement documents (each contract and modification) and/or requests for service in accordance with the provisions of DAR, section 20, part 4, i.e.:

1. Five copies to the DoD CAS component cognizant of a specific contractor's facility or of the geographic area in which the facility is located as designated by the CAS code.

2. One copy to the appropriate payment office when required.

3. One copy to the ADP point of the DoD CAS component when the DoDAAD code of the CAS component ADP point as shown herein is different from either the code shown for the CAS component or for the payment office. To facilitate the proper routing of the procurement document, the name and address of the ADP point is shown herein.

4. Exception: Only two copies need be distributed when performance of a single CAS function (e.g., quality assurance, transportation, or property administration) is requested by non-DoD organizations and by DoD activities retaining categories of contracts listed in DAR 20-703.2 for performance of administration at the purchasing office. When performance of a single function has been requested and additional functions are subsequently desired, the balance of the distribution requirement of five copies shall be completed. Other contractual documents and correspondence related to CAS matters shall likewise be addressed to the desig-

nated DoD CAS component. That office will effect further distribution of copies as required.

Note—In those cases where a contractor administers the contract at a facility other than the place of manufacture, such a contract shall be assigned to the DoD CAS component cognizant of the contractor's facility where the contractor's administration is performed. Pursuant to DAR 20-704(a), the component thus assigned shall request, from the DoD CAS component cognizant of the place of manufacture, that performance of CAS usually performed at such locations. Individual requests for quality assurance and transportation support are not required in those cases where specific distribution of the contract was made in accordance with DAR 20-401(d)(ii)(F). However, in order to be responsive to quality assurance and transportation requirements of the contract, the cognizant DoD CAS component at the place of manufacture must receive two copies of the contract concurrently with the office administering the contract.

SECTION V

CIVILIAN AGENCIES PROVIDING FIELD CONTRACT SUPPORT

In compliance with paragraph "g" of OFPP Policy Letter No. 78-4, Field Contract Support Cross-Servicing Program (See Appendix A), specialized support services from civilian agencies are available to contracting activities through cross-servicing arrangements. Requests for the specialized support services listed below should be sent directly to the office identified with the service:

1. Quality Assurance support to all Federal agency centralized procurement of drugs under the Government-wide quality assurance program for medical products

Department of Health, Education, and Welfare
Public Health Service
Food and Drug Administration
Medical Products Quality Assurance Staff
Rockville, Maryland 20857

2. Quality Assurance Program and Specification System for all food procured by Federal agencies in the United States and quality assurance inspections for all food other than seafood procured by Federal agencies.

United States Department of Agriculture
Food Quality Assurance Division
Food Safety and Quality Service
Washington, D.C. 20250

13. Quality assurance origin inspection for all seafood procured by Federal agencies.

United States Department of Commerce
NOAA/NMFS
Seafood Quality and Inspection Division
Page Building 2 - Room 383
3300 Whitehaven Street, N.W.
Washington, D.C. 20235

4. Cross-servicing as listed on pages 46, 47, 148 and 149 of the GSA Directory, titled U.S. Government Inspection and Testing Laboratories.

Veterans Administration
Department of Medicine and Surgery
Director, Supply Service
Washington, D.C. 20420

Other civilian agencies which desire to be included in this Section pursuant to OFPP Policy Letter No. 78-4 should provide appropriate information to the Defense Logistics Agency, ATTN: DLA-AO, Cameron Station, Alexandria, VA 23314.

POLICY LETTER NO. 78-4

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

Subject: Field Contract Support Cross-Servicing Program

A workforce of over 30,000 is currently engaged in providing field contract support services to procuring activities. These services include such functions as: quality assurance, engineering support, production surveillance, pre-award surveys, contract administration, contract compliance, property administration, industrial security, labor relations, transportation, contract payment and contract audit, among others. Field activities furnishing such services have satisfied similar needs of other agencies through voluntary cross-servicing arrangements.

The advantages of cross-servicing are significant. For example, cross-servicing serves to facilitate the acquisition process by providing specialized assistance through field offices located in close proximity to contractors' establishments. Such assistance can prove particularly useful with respect to (i) preaward surveys, (ii) reviews and analysis of contractors' proposals, (iii) control and disposition of Government-owned property in the possession of contractors, (iv) quality assurance and technical inspection of contract items, (v) audits of costs incurred in contract performance, and (vi) reviews of contractors' procurement systems.

Cross-servicing also enables the Government to consolidate and coordinate common administrative requirements of various agencies, thereby presenting "one face" to contractors. Through such arrangements, overlapping and duplication of effort is avoided or eliminated, including the placement of redundant requirements on contractors.

To maximize these benefits, a formal program to coordinate and promote field contract support cross-servicing is established as follows:

a. To facilitate the award and administration of contracts, agencies are encouraged to make use of cross-servicing arrangements with existing field contract administration and contract audit components. If the alternative involves the

establishment of a field capability duplicative of services available through cross-servicing arrangements, coordination with the Office of Federal Procurement Policy is required prior to establishment of the field capability.

b. Multiple reviews, inspections, and examinations of a contractor or subcontractor by several Federal agencies involving the same practices, operations, or functions shall be eliminated to the maximum practicable extent through the use of cross-servicing arrangements.

c. The customer and performing agency or component shall enter into formal cross-servicing arrangements when the volume of cross-servicing work or other circumstances warrant a formal understanding.

d. Reimbursement for services rendered under either formal or informal cross-servicing arrangements may be accomplished in accordance with section 601, Economy Act of 1932, 31 U.S.C. 686. However, agencies normally should refrain from seeking reimbursement for cross-servicing accomplished incidental to their own needs or Government-wide responsibilities. Use of the hourly rate established under the cross-servicing agreement of the Department of Defense and the National Aeronautics and Space Administration may be employed to facilitate reimbursement arrangements.

e. OMB Circular No. A-73, revised March 15, 1978, sets forth executive branch policy governing audit cross-servicing arrangements. Such arrangements shall be employed in the audit of costs incurred under contracts, or contracts and grants of two or more Federal agencies being performed at the same business entity. At these locations, the establishment of annual indirect cost or negotiated overhead rates shall be coordinated by the responsible activity with concerned agencies. These rates, established in accordance with applicable policies and procedures, shall be conveyed to those agencies for application to their contracts or grants to the extent allocable and allowable thereunder.

f. Both the requesting and supporting activities are responsible for prudent use of support services provided under either formal or informal interagency cross-servicing arrangements. In recognition of this responsibility, support service activities shall, when deemed appropriate, counsel the requesting agency concerning the desirability and practicality of relaxing or waiving any controls and surveillance not necessary to ensure satisfactory performance of contracts.

g. To facilitate interagency cross-servicing, the Department of Defense shall arrange for publication and distribution of directories of Federal contract administration and contract audit offices. These directories shall encompass (i) DOD contract administration service components, (ii) Defense Contract Audit Agency offices, (iii) cognizant agency assignments established under Federal Management Circular 73-6 (formerly OMB Circular No. A-88) for educational institutions, (iv) cognizant agency assignments established under Federal Management Circular 74-4 (formerly OMB Circular No. A-87) for State and local governments, and (v) other Federal components capable of providing field support services to contracting activities through cross-servicing arrangements.

h. To the extent consistent with overall employment ceilings and fiscal objectives, the Office of Management and Budget will consider the extent of cross-servicing in reviewing agency budget requests.

i. No provision of this policy or any implementation thereof shall obstruct an agency from fulfillment of its program responsibilities.

Questions and inquiries concerning this Policy Letter should be submitted to the Office of Management and Budget, Administrator for Federal Procurement Policy, telephone number (202) 395-4946.

Lester A. Fettig
