MEMORANDUM FOR DR. CHARLES COOK
DEPUTY UNDERSECRETARY OF THE
AIR FORCE (SPACE SYSTEMS)

SUBJECT: Improved RBV for ERTS C

(S) This is to confirm the understanding we arrived at yesterday with regard to the stated NASA intent to install improved RBV imagery equipment on ERTS C. The information I received verbally from Mr. Leonard Jeffe at NASA, was that the improved RBV imagery is expected to have a ground resolution of about 40 meters. In accordance with our understanding I have asked NASA to furnish the expected performance specifications of the improved RBV before conveying to them an official DoD position. Such a request is in conformance with past ICCERSP and 156 Committee procedures.

SIGNED

cc: Mr. Leonard Jeffe
