34. What do you perceive as the mission of your unit? Describe the importance of your role in that mission. (Insight to the Soldier's understanding and attitude concerning unit mission and their role) AR 600-20 Command Policy 2-1. Chain of Command a. The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct

chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. b. Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions.

35. Describe your working environment and living conditions since being in Theater. (Identify physical and psychological impact on Soldier's attitude). (1.2, 1.3, 1.4, 1.5, 1.6, 1.7) FM 10-1, Ch. 7, para. 3, "Tactical Vision. A primary QMC focus at the tactical level will continue to be on sustainment of the soldier. Each company-sized unit will have two cooks and a small, state-of-the-art field kitchen. This provides a limited capability to prepare or heat meals and supplements. An improved containerized capability for providing responsive laundry and shower support well forward on the battlefield must be developed. Frontline soldiers require brief respites from the rigors associated with combat. Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest. . .

(Those that raise their hands, need to be noted and interviewed individually afterwards using the ABUSE QUESTIONNAIRE) AR 190-8, 1-5. General protection policy a. U.S. policy, relative to the treatment of EPW, CI and RP in the custody of the U.S. Armed

Forces, is as follows: (1) All persons captured, detained, interned, or otherwise held in U.S. Armed Forces custody during the course of conflict will be given humanitarian care and treatment from the moment they fall into the hands of U.S. forces until final release or repatriation. (2) All persons taken into custody by U.S. forces will be provided with the protections of the GPW until some other legal status is determined by competent authority. (3) The punishment of EPW, CI and RP known to have, or suspected of having, committed serious offenses will be administered IAW due process of law and under legally constituted authority per the GPW, GC, the Uniform Code of Military Justice and the Manual for Courts Martial. (4) The inhumane treatment of EPW, CI, RP is prohibited and is not justified by the stress of combat or with deep provocation. Inhumane treatment is a serious and punishable violation under international law and the Uniform Code of Military Justice (UCMJ). b. All prisoners will receive humane treatment without regard to race, nationality, religion, political opinion, sex, or other criteria. The following acts are prohibited: murder, torture, corporal punishment, mutilation, the taking of hostages, sensory deprivation, collective punishments, execution without trial by proper authority, and all cruel and degrading treatment. c. All persons will be respected as human beings. They will be protected against all acts of violence to include rape, forced prostitution, assault and theft, insults, public curiosity, bodily injury, and reprisals of any kind. They will not be subjected to medical or scientific experiments. This list is not exclusive. EPW/RP are to be protected from all threats or acts of violence. d. Photographing, filming, and video taping of individual EPW, CI and RP for other than internal Internment Facility administration or intelligence/counterintelligence purposes is strictly prohibited. No group, wide area or aerial photographs of EPW, CI and RP or facilities will be taken unless approved by the senior Military Police officer in the Internment Facility commander's chain of command. e. A neutral state or an international humanitarian organization, such as the ICRC, may be designated by the U.S. Government as a Protecting Power (PP) to monitor whether protected persons are receiving humane treatment as required by the Geneva Conventions. The text of the Geneva Convention, its annexes, and any special agreements, will be posted in each camp in the language of the EPW, CI and RP.

If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest. . .

43. Describe the unit command climate and Soldier morale. Has it changed or evolved since you have been in Theater? **(Identifies Soldier's perception of the chain of command and Soldier attitude. Does the Soldier feel supported? Do Soldiers feel the Command cares? Are they getting clear guidance?)** 1 AR 600-20 • 13 May 2002 1-5. Command, b. Elements of command. c. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. a. The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. b. Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions.

Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest.

equipment, and quarters; by deference to seniors and mutual respect between senior and subordinate personnel; by the prompt and willing execution of both the letter and the spirit of the legal orders of their lawful commanders; and by fairness, justice, and equity for all soldiers, regardless of race, religion, color, gender, and national origin. c. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. Chain of Command *a.* The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. *b.* Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions.

Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest.

(2) All persons taken into custody by U.S. forces will be provided with the protections of the GPW until some other legal status is determined by competent authority. (3) The punishment of EPW, CI and RP known to have, or suspected of having, committed serious offenses will be administered IAW due process of law and under legally constituted authority per the GPW, GC, the Uniform Code of Military Justice and the Manual for Courts Martial. (4) The inhumane treatment of EPW, CI, RP is prohibited and is not justified by the stress of combat or with deep provocation. Inhumane treatment is a serious and punishable violation under international law and the Uniform Code of Military Justice (UCMJ). b. All prisoners will receive humane treatment without regard to race, nationality, religion, political opinion, sex, or other criteria. The following acts are prohibited: murder, torture, corporal punishment, mutilation, the taking of hostages, sensory deprivation, collective punishments, execution without trial by proper authority, and all cruel and degrading treatment. c. All persons will be respected as human beings. They will be protected against all acts of violence to include rape, forced prostitution, assault and theft, insults, public curiosity, bodily injury, and reprisals of any kind. They will not be subjected to medical or scientific experiments. This list is not exclusive. EPW/RP are to be protected from all threats or acts of violence. d. Photographing, filming, and video taping of individual EPW, CI and RP for other than internal Internment Facility administration or intelligence/counterintelligence purposes is strictly prohibited. No group, wide area or aerial photographs of EPW, CI and RP or facilities will be taken unless approved by the senior Military Police officer in the Internment Facility commander's chain of command. e. A neutral state or an international humanitarian organization, such as the ICRC, may be designated by the U.S. Government as a Protecting Power (PP) to monitor whether protected persons are receiving humane treatment as required by the Geneva Conventions. The text of the Geneva Convention, its annexes, and any special agreements, will be posted in each camp in the language of the EPW, CI and RP.

The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. (Insight to the Soldier's understanding and attitude concerning unit mission and their role) AR 600-20 Command Policy 2-1. Chain of Command a. The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. b. Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions.

34. Describe the unit command climate and Soldier morale. Has it changed or evolved since you have been in Theater? (Identifies Soldier's perception of the chain of command and Soldier attitude. Does the Soldier feel supported? Do Soldiers feel the Command cares? Are they getting clear guidance?) 1 AR 600-20 • 13 May 2002 1-5. Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest.

(3) The punishment of EPW, CI and RP known to have, or suspected of having, committed serious offenses will be administered IAW due process of law and under legally constituted authority per the GPW, GC, the Uniform Code of Military Justice and the Manual for Courts Martial. (4) The inhumane treatment of EPW, CI, RP is prohibited and is not justified by the stress of combat or with deep provocation. Inhumane treatment is a serious and punishable violation under international law and the Uniform Code of Military Justice (UCMJ). b. All prisoners will receive humane treatment without regard to race, nationality, religion, political opinion, sex, or other criteria. The following acts are prohibited: murder, torture, corporal punishment, mutilation, the taking of hostages, sensory deprivation, collective punishments, execution without trial by proper authority, and all cruel and degrading treatment. c. AR 600-20 Command Policy 2-1. Chain of Command a. The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. b. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest.

(3) The punishment of EPW, CI and RP known to have, or suspected of having, committed serious offenses will be administered IAW due process of law and under legally constituted authority per the GPW, GC, the Uniform Code of Military Justice and the Manual for Courts Martial. 19. What do you perceive as the mission of your unit? Describe the importance of your role in that mission. (Insight to the Soldier's understanding and attitude concerning unit mission and their role) AR 600-20 Command Policy 2-1. Chain of Command *a.* The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the

least chance of misinterpretation. b. Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions.

20. Describe your working environment and living conditions since being in Theater. (Identify physical and psychological impact on Soldier's attitude). (1.2, 1.3, 1.4, 1.5, 1.6, 1.7) FM 10-1, Ch. 7, para. 3, "Tactical Vision. A primary QMC focus at the tactical level will continue to be on sustainment of the soldier. Each company-sized unit will have two cooks and a small, state-of-the-art field kitchen. This provides a limited capability to prepare or heat meals and supplements. An improved containerized capability for providing responsive laundry and shower support well forward on the battlefield must be developed. Frontline soldiers require brief respites from the rigors associated with combat. A facility complex (Force Provider) will be available in which they can shower, clean their clothes, eat hot meals, and rest in an environmentally controlled shelter.

21. Describe the unit command climate and Soldier morale. Has it changed or evolved since you have been in Theater? (Identifies Soldier's perception of the chain of command and Soldier attitude. Does the Soldier feel supported? Do Soldiers feel the Command cares? Are they getting clear guidance?) 1 AR 600-20 • 13 May 2002 1-5. Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest.

22. Are you aware of any incidences of detainee or other abuse in your unit? AR 190-8, 1-5. General protection policy a. U.S. policy, relative to the treatment of EPW, CI and RP in the custody of the U.S. Armed Forces, is as follows: (1) All persons captured, detained, interned, or otherwise held in U.S. Armed Forces custody during the course of conflict will be given humanitarian care and treatment from the moment they fall into the hands of U.S. forces until final release or repatriation. (2) All persons taken into custody by U.S. forces will be provided with the protections of the GPW until some other legal status is determined by competent authority. (3) The punishment of EPW, CI and RP known to have, or

suspected of having, committed serious offenses will be administered IAW due process of law and under legally constituted authority per the GPW, GC, the Uniform Code of Military Justice and the Manual for Courts Martial. (4) The inhumane treatment of EPW, CI, RP is prohibited and is not justified by the stress of combat or with deep provocation. Inhumane treatment is a serious and punishable violation under international law and the Uniform Code of Military Justice (UCMJ). b. All prisoners will receive humane treatment without regard to race, nationality, religion, political opinion, sex, or other criteria. The following acts are prohibited: murder, torture, corporal punishment, mutilation, the taking of hostages, sensory deprivation, collective punishments, execution without trial by proper authority, and all cruel and degrading treatment. c. All persons will be respected as human beings. They will be protected against all acts of violence to include rape, forced prostitution, assault and theft, insults, public curiosity, bodily injury, and reprisals of any kind. They will not be subjected to medical or scientific experiments. This list is not exclusive. EPW/RP are to be protected from all threats or acts of violence. d. Photographing, filming, and video taping of individual EPW, CI and RP for other than internal Internment Facility administration or intelligence/counterintelligence purposes is strictly prohibited. No group, wide area or aerial photographs of EPW, CI and RP or facilities will be taken unless approved by the senior Military Police officer in the Internment Facility commander's chain of command. e. A neutral state or an international humanitarian organization, such as the ICRC, may be designated by the U.S. Government as a Protecting Power (PP) to monitor whether protected persons are receiving humane treatment as required by the Geneva Conventions. The text of the Geneva Convention, its annexes, and any special agreements, will be posted in each camp in the language of the EPW, CI and RP.

Each company-sized unit will have two cooks and a small, state-of-the-art field kitchen. This provides a limited capability to prepare or heat meals and supplements. An improved containerized capability for providing responsive laundry and shower support well forward on the battlefield must be developed. Frontline soldiers require brief respites from the rigors associated with combat. A facility complex (Force Provider) will be available in which they can shower, clean their clothes, eat hot meals, and rest in an environmentally controlled shelter.

38. Describe the unit command climate and Soldier morale. Has it changed or evolved since you have been in Theater? (Identifies Soldier's perception of the chain of command and Soldier attitude. Does the Soldier feel supported? Do Soldiers feel the Command cares? Are they getting clear guidance?) 1 AR 600-20 • 13 May 2002 1-5. Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the

professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest. .

(3) The punishment of EPW, CI and RP known to have, or suspected of having, committed serious offenses will be administered IAW due process of law and under legally constituted authority per the GPW, GC, the Uniform Code of Military Justice and the Manual for Courts Martial. (4) The inhumane treatment of EPW, CI, RP is prohibited and is not justified by the stress of combat or with deep provocation. The following acts are prohibited: murder, torture, corporal punishment, mutilation, the taking of hostages, sensory deprivation, collective punishments, execution without trial by proper authority, and all cruel and degrading treatment. c. All persons will be respected as human beings. They will not be subjected to medical or scientific experiments. This list is not exclusive. EPW/RP are to be protected from all threats or acts of violence. d. Photographing, filming, and video taping of individual EPW, CI and RP for other than internal Internment Facility administration or intelligence/counterintelligence purposes is strictly prohibited. No group, wide area or aerial photographs of EPW, CI and RP or facilities will be taken unless approved by the senior Military Police officer in the Internment Facility commander's chain of command. e. A neutral state or an international humanitarian organization, such as the ICRC, may be designated by the U.S. Government as a Protecting Power (PP) to monitor whether protected persons are receiving humane treatment as required by the Geneva Conventions. The text of the Geneva Convention, its annexes, and any special agreements, will be posted in each camp in the language of the EPW, CI and RP.

The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (4) The use of tobacco will be permitted in designated smoking areas. (5) EPW will, as far as possible, be associated with the preparation of their meals and may be employed for that purpose in the kitchens. (6) Adequate premises will be provided for messing. (7) Collective disciplinary measures affecting food are prohibited. g. Clothing, underwear, and footwear will be supplied to EPW/ RP in sufficient quantities, and allowances will be made for the climate of the region where the prisoners are detained. Captured uniforms of enemy armed forces will, if suitable for the climate, be made available to clothe EPW/RP. The camp commander will ensure the regular replacement and repair of the above articles. EPW/RP who work will receive clothing appropriate to the nature or location of the work demands. FM 4-02.17, paragraph 3-13: Military Police Units. a. Preventive medicine personnel play a vital role in the oversight of health and sanitation standards in displaced persons assembly areas, enemy prisoner(s) of war (EPW) camps, and confinement facilities. To perform this mission, PVNTMED personnel are assigned to military police (MP) EPW detachments, MP EPW battalions, MP EPW brigades, MP EPW commands, and MP confinement battalions. b. The type and number of PVNTMED personnel assigned is dependent upon the assigned unit's mission. The PVNTMED element can range from a single PVNTMED noncommissioned officer (NCO) to a staff consisting of an environmental science officer, a sanitary engineer, and PVNTMED specialists. c. They serve as technical advisors to the command on PVNTMED issues associated with the supported population. Since the staff's role is advisory, it has no organic equipment and must coordinate for monitoring/testing support from PVNTMED detachments, ASMB or the Theater Army Medical Laboratory (TAML).

Para 2-2 b: Ensure sick and wounded EPW and RP in their custody are classified, by qualified medical personnel, as either walking wounded or litter, or as non-walking wounded. Walking wounded or litter EPW will be evacuated through established evacuation channels. Non-walking wounded or sick EPW will be delivered to the nearest medical aid station and evacuated through medical channels. All detained personnel will remain physically segregated from U.S. and allied patients. Para 3-4 i (2): EPW/RP with a contagious disease, mental condition, or other illness, as determined by the medical officer, will be isolated from other patients. A list of endemic diseases of military importance can be obtained from the theater surgeon or preventive medicine officer. Hold sick call daily at a time that does not interfere with duties and training of prisoners. Medical examinations and treatment usually require using instruments and medications that can cause custody and control problems. Secure medications and equipment when they are not in use, and inventory them frequently. 7-105: Corrections NCOs dispense medication to prisoners in cellblocks, supervise the ingestion or application of the medication, and maintain a medication issue register. (Insight to the Soldier's understanding and attitude concerning unit mission and their role) AR 600-20 Command Policy 2-1. Chain of Command a. The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. b. Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions.

24. Describe the unit command climate and Soldier morale. Has it changed or evolved since you have been in Theater? (Identifies Soldier's perception of the chain of command and Soldier attitude. Does the Soldier feel supported? Do Soldiers feel the Command cares? Are they getting clear guidance?) 1 AR 600-20 • 13 May 2002 1-5. Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders

committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest. .

The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate.
